

2024 Water Quality Report: Safe, Clean, and Yours to Explore

The City of Truth or Consequences is proud to share the 2024 Annual Water Quality Report — and the results are clear: your drinking water is safe, clean, and fully compliant with all federal and state standards.

This report is more than just numbers. It's your guide to understanding where your water comes from, how it's treated, and what you can do to help protect and preserve this vital resource. Inside the report, you'll find:

- A breakdown of water sources and treatment methods
- Details on testing, compliance, and a minor violation that was quickly resolved
- Important information about lead safety and how to reduce exposure in your home
- Easy, low-cost water conservation tips that can save thousands of gallons a month
- Ways you can help protect our water sources and get involved in your community.

Whether you're a homeowner, parent, business owner, or simply a curious resident, this report empowers you to make informed choices about your water use and safety.

New Notification System Launching in July!

Starting in July, we will begin using **Daupler Notify**, a mass notification system designed to keep you informed during planned maintenance or emergency situations. You'll receive a text or robocall based on your phone type.

To ensure you receive these important messages, please call **(575) 894-6671** to update your mobile or landline number with the City Utility office.

REMINDERS

GRAVE MARKERS

Temporary gravesite markers are still available for pick-up at the Clerk's Office at 505 Sims Street.

METER TAMPERING

Tampering with water or electric meters is Prohibited Per Sec. 14-33, Code 1962, § 3-3-7; Ord. No. 642, § 1 (10-22-13), it is unlawful to tamper with, hinder, or damage electric or water meters to alter their readings.

FOCH STREET PROJECT
