

Big Shade, Bright Future at Ralph Edwards Park!

A major upgrade is coming to the playground at Ralph Edwards Park—a new, permanent shade structure designed by Truth or Consequences City staff to provide lasting comfort and protection for local families. With a sleek aluminum roof, natural light-filtering windows, and a design that blends beautifully with the park's surroundings, this project reflects the city's commitment to thoughtful, long-term improvements. Learn how this homegrown effort came together and what it means for the future of our parks. Read more on our Website!

Marie Street Highlighted in Safety Action Plan

As part of the newly approved Vision Zero Safety Action Plan, Marie Street has emerged as a key corridor for future improvements in Truth or Consequences. With its potential to support bike lanes, pedestrian paths, and ADA-compliant upgrades, the city is pursuing funding for a dedicated corridor study—thanks in part to free grant-writing support from Wilson & Company. Learn how this project fits into a broader vision for Complete Streets and what it could mean for the future of local infrastructure. See more at torcnm.org/cityblueprint.

Storm Damage and Swift Repairs

A recent storm near Kingdom Hall caused damage—but thanks to the City's Electric Department, power was swiftly restored and greater harm was avoided. ⚡ See how the team made it happen—read the full story and see pictures on our website!

Survey Results Shape City's Comprehensive Plan

Wilson & Company has released the results of the City's recent Comprehensive Plan survey, reflecting the priorities and concerns of Truth or Consequences residents. The survey included both structured questions and open-ended responses, offering valuable insight into what matters most to the community—from infrastructure and housing to economic development and public services. The full survey results, along with meeting details, are available on our Public Notices page.
